POINTE AND PRE-POINTE COLOR PLACEMENTS

Students placed in these levels are chosen by the Artistic Director to continue with this commitment of study. Students should read all pointe documents on the Studio Director Portal to prepare to be fitted and to purchase pointe shoes. Beginning students must get a physical from their pediatrician and or a "Sports Physical Therapist" to make sure their body can sustain this level of study. Some students may be placed in these Color Placements without the ability to go on pointe. This will not negatively affect their training if it is decided that they should remain on soft shoe. We believe that physical, emotionally and spiritually healthy students come first! Students must be 12 years of age and have a certain level of physical maturity in order to begin pointe with pointe shoes. However, some students are ready for this commitment but are waiting on the "time" to receive their first pointe shoes. These students should take the pointe class as "Pre-Pointe" in their Color Placement to prepare their body for this commitment of study.
